

Debian Bug report logs: Bugs in package epiphany-browser (version 2.29.3-1) in unstable

Maintainers for epiphany-browser are [Josselin Mouette <joss@debian.org>](mailto:joss@debian.org).

You may want to refer to the following packages that are part of the same source: [epiphany-browser-data](#), [epiphany-browser-dbg](#), [epiphany-browser-dev](#), [epiphany-gecko](#), [epiphany-webkit](#).

You might like to refer to the [epiphany-browser package page](#), to the [Package Tracking System](#), or to the source package [src:epiphany-browser](#)'s bug page.

If you find a bug not listed here, please [report it](#).

- [Outstanding bugs -- Serious \(policy violations or makes package unfit for release\); Unclassified](#) (2 bugs)
- [Outstanding bugs -- Important bugs; Unclassified](#) (2 bugs)
- [Outstanding bugs -- Important bugs; More information needed](#) (1 bug)
