

# More info for bug 655068

- Set zoom to best fit.
- Please use only  $\leftarrow$ ,  $\rightarrow$ ,  $\uparrow$  and  $\downarrow$  keys to navigate to next/previous page...
- See that navigating is smooth between pages (pages always on top). Only last page has odd “jumping” transition (to bottom), that shows up only with continuous page display.
- Go to next page...

# Page 2

- Just go to next page.

# Page with links.

- Follow link to [1st page](#)
- Follow link to [this page](#)
- Play with best fit option, both with and without continuous page display.
- The reported bug 655068 is that AFTER following a link, navigation smoothness is **completely lost**.
- I recorded a screencast with keywords
